Feel at home from the moment you step through the door with the spectacular Santiago, a single-story residence designed with modern living in mind. Ample natural light floods the open-concept kitchen, breakfast room, family room and formal dining room. Upgraded kitchen appliances can be added for the eager home cook and you could add a fireplace or a covered patio to create the ultimate entertainer's oasis for year-round enjoyment. There are three bedrooms and two full baths as standard including the master with dual walk-in closets and a private master bath. Those who work from home might look to add a study, with double entry doors, plus there's the option to upgrade the master bath or add a fourth bedroom and third bathroom to expand the show-stopping floorplan even further. Completing the long list of options is your choice of four elevations including a Farmhouse, Tuscan, Traditional or Contemporary-inspired facade.
